Another Review special says: "Wallace was in control of an armed and rabid mob all last night. Upon the arrival of the union men from Wardner yesterday many proceeded to get drunk. During the night the strikers held high carnival. This morning a number of non-union men came down from the Granite mine to be paid and leave the country. They went to the Wallace bank to get their checks cashed, but a number of the strikers marched in a body into the bank and ordered them to leave town. They hurried to the depot and got on to a train. The troops are now here and the people are thankful."

The Review has taken an advanced position in denouncing the lawless actions of the mob, and the strikers are reported to feel very bitter against it. CAUSE OF THE STRIKE

What the Miners Claim—Statement by One of the Employers.

San Francisco, July 14.—[By the Associated Press.] J. J. Hammond, president of the Bunker Hill and Sullivan Mining Company, who is now in this city, said today that he had received telegrams stating that everything is quiet today in the Cour d'Alene district. Hammond said that the directors of the company had not yet decided what course to take regarding the future working of the mines. The principal loss to the company so far has been that of time. The company had gone to great expense in erecting the mill and making other improvements, and the shut-down was much to their disadvan-

shut-down was much to their disadvantage.

G. R. Smith, who was sent to this city by the Executive Committee of the Wallace Miners' Union to prevent the importation in that section of non-union men, said that while the origin of the present trouble could be indirectly traced to the demand for an increase of wages, which was unsuccessful, last year, the direct cause of the trouble was a revolt by the men against the hospital tax of \$1 per month, levied by the company, and which the miners claimed was not productive of assistance to them at times when needed. The unions built a hospital at Wallace and adopted the rule that the dollar per month, instead of being paid into the company should be paid to the bospital.

The Bunker Hill and Suilivan Company refused to recognize the justice of this rule and the strike resulted in favor of the miners. Smith claims that the re-duction of wages then followed.

GEN. SCHOPIELD'S ADVICES The Cœur d'Alene Outbreak

Federal Troops in Control and Doing Their Fall Duty.

Washington, July 14.—|By the Associated Press.| Telegrams received by Maj.-Gen. Schoffield this afternoon show that the labor troubles in the Cour d'Alene mining district are at an end for the present. The rioters are deposed and the State authorities, aided by Federal troops are in full pressention. by Federal troops are in full possess of the field. Gen. Schofield said of the field. Gen. Schofield said tonight that people who complained because the soldiers had not arrested the
rioters had a very improper conception
of the position of the troops in the matter. He explained that they were ordered there merely to support the civil
authorities in the restoration of order,
and were acting altogether under the
orders of the Governor of the State.
They had no independent functions
whatever, and absolutely nothing to do
with any disorders arrive may occur before their arrival de duty of the
civil authorities is to enforce the law,
and all the troops could do was to protect them in so doing.

MINE-OWNERS COMPLAIN.

They Think the Troops Might Have Saved Their Property. Washineron, July 14.—[By the Asso-clated Press.] Bitter complaints have been received by the Idaho Senators here from representatives of the mine-owners in the Cour d'Alene region re-specting the conduct of the military in the disturbed district. They say the the disturbed district. They say the troops were held at a point twelve miles from the scene of the rioting until the best part of their property had been destroped, a number of non-union men—helpless and unarmed—killed, and others driven from the milis and out of the country, directly past the soldiers sent there to protect them. The Senators have been requested to have Gen. Schofield to instruct Gen. Carlia to surround the scene of trouble and prevent the escape of any of the miners who have participated in rioting and deliver the guilty men to the legal authorities. In conformity with this request Senator Shoup has requested the War Department to order the arrest of the miners by troops. by troops.

Boise City (Idaho,) July 14.—[By the Associated Press.] The tension of public feeling bas relaxed somewhat, as it be settled that the troops are in absolute control in Cœur d'Alene. CHICAGO, July 14.—Director-General Davis has nominated four new bureau officers. He has named H. L. Larne of California to be superintendent of the Burean of Viticalture in the Department of Horticulture at a salary of \$2500. Latue has had a strong opponent in Maj. Ben C. A Whisky War Begun

St. Louis, July 14.—For a long time the Whisky Trust held a monopoly in making quotations on high wines and spirits at Chicago, St. Louis, Cincinnati and Peorla. Yesterday, however, the Central Distilling Company of this city, the only establishment of the kind in St. Louis not controlled by the trust, notified the trade that it would in future make a market on high wines. This was followed by quoting high wines at \$1.10, or 5 ceuts less than the figures quoted by the trust. War rates are

WASHINGTON, July 14.—Secretary Foster, of the State Department, said today that the action of the Canadian council in allowing rebates on tolls on grain shipped from American points on Lake Ontario, passing through the St. Lawrence Canal and ex-porting from Montreal, has no particular bearing on the controversy between the United States and Canada on the subject of discriminating canal toils. He added that it could hardly be regarded as very much of a conces-

Daring Train-robbery in the Indian Territory.

A Posse of Guards Driven Off with Two Men Wounded.

The Express Safe Drilled and Blown Open with Powder.

The Robbers Secure \$40,000 and Make Good Their Escape—Thought to be the Work of the Dalton Gang.

By Telegraph to the Times.
GUTHRIE (Oklahoma,) July 14.—[Bf the Associated Press. | Missouri, Kansas and Texas passenger train No. 2, southbound, was held up by a gang of masked robbers at Adair, I. T., late tonight. The robbers secured the contents of the safe of the Pacific Express Company and made good their escape.

It is believed the robbers were the noted Dalton gang, who are responsible for a large number of similar scenes in the Territory. The method of the robbery corresponds with the methods of

all the Daltons' operations. The train had just left Adair, when two men crawled over the tender, terrorizing the engineer and fireman with drawn revolvers and demanded that the engineer stop the train. As he did so the posse which was on the train to protect it, prepared for an attack, which was immediately made by mem-

bers of the gang from the roadside. J. W. Kennedy and two Indian policemen, members of the posse, were shot and slightly wounded. They, together with other members of the posse retreated and left the robbers a clear

field. The express messenger in the meantime had locked the safe and hidden the key after having barricaded the

door of the car. The robbers broke through the barricade, drilled the safe and blew it open with powder, securing the entire contents. The amount stolen is believed to be in the neighborhood of \$40,000. The robbers escaped.

REFUSE TO ANSWER.

The Interstate Commerce Commission De-fied by Several Corporations. CHICAGO, July 14.—[By the Associated Press.] Evidently the Interstate Com-merce Commission has determined to find out if possible the exact relation between the Illinois Steel Company and five railroad companies. Commiss Veazey today adopted a new plan of procedure, making a formal demand on Vice-President Sterling of the Illinois Steel Company for the stock book of

that concern. Sterling's counsel de-clined to permit the books to be inspected.
"Then you refuse to let the Commis-"Then you refuse to let the Commission see the books?" inquired Commissioner Veazey. After a conference of lawyers, railroad men and the steel company's officials, the conclusion was reached that it would be unwise to let the books be inspected. "Then," said Veazey, "I'll subpena you, Sterling, to produce the stock book."

This gaused a sensation, and right on top of it came an order making it imperative upon the auditor of the railroad companies to yield to the secre-

road companies to yield to the secre-tary books for his inspection, An-other consultation resulted in a decision by the railroad people to postpone

At the afternoon session the first case called was a complaint against the Grand Trunk, East Saginaw and Michigan and Wabash roads. They are gan and waoash roads. They are charged with having given lower rates than those stated in the tariff sheets to foreign and domestic points. The first witness was David Brown, freight agent of the Chicago and Grand Trunk. He absolutely declined to answer questions in regard to the above charge. The next witness was Sumner Hopkins, freight agent of the Wabash. His attorney advised him to refuse to answer the commission's questions, because he believed the commission had no juriship to institute and income. diction to institute such inquire

Other witnesses were placed on the stand with similar result. Chairman Yeazey said after adjourn-ment that an effort would be made to compel the witnesses to answer quesions, and he will invoke the assistance of the courts. If they then decline to answer they will be in contempt and punishable accordingly.

BRAGG TOLD THE TRUTH.

Sensational Developments in the Sanchez Case.

An Old Deed Turns Up at an Inop portune Time,

Showing That Two Men Have Will fully Committed Perjury.

veloped by the Discovery of The trial of the case of Encarnacion Sanchez vs. B. F. Bragg et al., an ac-tion to quiet title to a piece of land in the Cadierque tract, was concluded be-

fore Judge Shaw in Department Five yesterday morning, the matter being ordered submitted on briefs. During the progress of this case a sensation was created by a disclosure which, though apparently of small mo-

ment, may develop into a large-sized sensation, and land two of the princi-pal witnesses for the prosecution in the Bragg forgery cases in the penitentiary for perjury. It will not, however, affect Bragg's innocence or guilt in the slightest degree, except in so far as his veracity is concerned. The facts elicited by this and the Bragg cases, are as

follows:
Shortly before the death of Jean Cadierque, which occurred in January, 1886, Manuel Cota induced him to leave his grandmother's house and dwell with him. The object of this was readily apparent, for after Cadierque died, it was found that he had made a will leaving a few little things to his will, leaving a few little things to his grandmother and the balance of his estate, consisting of \$800 in cash and two lots, to Cota. Balvina Duarte de Abila determined to contest this will, and Abila determined to contest this will, and entered into an agreement with Bragg to fight it, whatever should be awarded to her if successful, to be divided between them. On June 6, 1886, Ccta, however, conveyed the lots to Henry Vejar, his nephew. On June 12 a family meeting was had, at which the matter was fully discussed, and it was then agreed that Cota should be allowed to retain lot 2 of the Cadierque tract, valued at \$600, while Balvina Duarte de Abila should take lot 1, valued at \$2000. On the same day Henry Vejar reconveyed the land to Cota, who in turn deeded lot 1 to Balvina Duarte de Abila, by whom it was conveyed to B. F. Bragg and his wife. Nothing more was said or done in the premises until June 1890, in the premises until June 1890, when a dispute arose over the estate of Irenio Abila, deceased, of which Bragg was administrator, and these lots in the Cadierque tract being involved, a search of the records was made, when it was found that Cota's deed had not been

recorded by Vejar.

A search through Notary Public Kohler's records revealed the fact that Vejar on January 21, 1886, had also acknowledged a deed to Cota's son for these lots, but that also had not been recorded. The main point in the San-chez case was, whether or not Vejar had ever conveyed these lots to young Cota, which he denied emphatically. It was subsequently admitted by Attorney Appel, however, that there was such a deed, and Vejar was called upor to produce it yesterday.

Accordingly Vejar appeared in court vesterday morning, with an old naper

pesterday morning with an old paper bag which contained the fragments of a badly preserved document. This, on a badly preserved document. This, on being pieced together, proved to be not the deed required, but that which both Vejar and Cota had sworn positively (in the Bragg case) had never been in the Bragg case) had never been made, thus proving that the testimony of both Bragg and Mrs. Abila, in this respect, was true, and that the two men had willfully committed perjury. It is understood that the attention of the District Attorney will be called to this discovery with the view of prosecuting Vejar and Cota.

IN SOCIAL SPHERES.

SOCIETY AT THE OPERAHOUSE. Lovers of comic opera who have been laughing themselves hoarse all the week over the antics of The Merry Monarch and his court, congregated again in full force at the Grand Operahouse last night to see The Lion Tamer. Mrs. K. H. Wade and daughter came

LOTAL LEGION SOCIAL. A very pleasant social was given by the Loyal Legion at Union Hall, corner Seventeenth street and Grand avenue Wednesday evening. The programme, while short, was interesting, and opened lowed by an excellent piano duet by Misses Vickery and Monison. Some very graceful club-swinging by Miss More was followed by the recitation "Darius Green and His Flying Machine," given by Charles Bernard in his usual inimitable style. A banjo solo by Miss Blanford brought the programme to a close, and an adjournment was taken to the dining-hall, where refreshments were served by the ladies. A PASTORAL RECEPTION.

TIRED OF LIFE.

Suicide of the Wife of a Storekeeper at Savanna.

Minutes-No Cause Known for the Trouble.

Yesterday morning a telephone mesfice to the effect that Mrs. S. Schirpser, the wife of a small storekeeper at Savanna, near El Monte, had committed

suicide by taking poison.

So far as known there was no cause for the rash act. The woman was the second wife of S. Schirpser, who formerly kept a small general store on South Spring street, opposite the Court-house, in this city. Some months ago Shirpser moved to El Monte, where he remained until a short time ago, when he removed to Savanna. The couple had one child, and their domestic affairs were apparently happy. Yesterday morning Schirpser noticed that his wife was very restless, and kept moving about the house, going out in the yard once or twice. He asked her if she was sick, when she said no, and returning into the house went to the front door, which she opened, and after looking up and down the street for a few seconds, suddenly fell to the floor in convulsions. She was picked up and taken to her room, when her husband immediately sent for a physician. There was no suspicion as to suicide until the messenger started off for the doctor, when Mrs. Schirpser told her husband that it was useless, as it was too late for him to do any good. The messenger, nevertheless, started off, but the woman died in a few minutes without having made any explanation. remained until a short time ago, when

without having made any explanation.

A search of the premises was then made, when a bottle of strychnine was found, some of which had been taken, and the Coroner was notified. Word was then sent to the Coroner's office, but as Dr. Weldon was absent at Acton, holding an inquest on the body of John Downs, the Justice of the Peace at El Monte held the inquest on the body of Mrs. Schirpser.

DRUNK ROLLER ON TRIAL.

A Hard Character Before Police Justice Owens. The trial of F. P. Morrison, the burly "drunk roller," was commenced vesterday before Justice Owens, and, after

being partially heard, was continued until this afternoon at 2 o'clock. Morrison is a disreput able character who for some months past has been living with a negro prostitute, and incidentally "rolling" drunks and levying blackmail in a small way. claims to be a private detective, and wears a shield of the "Grannan Detective Agency of Cincinnati," under cover of which he does his work. Some time ago Morrison picked up a young man named Mallard, who was drunk on man named walture, who was truing to get him off into a dark corner where he could go through him, when he was caught by Officer Halleran and taken to the police station, where he was locked up. Owing to some technicality the fellow can only be prosecuted on a charge of battery. He is a hard char-acter, and will probably be given a long term in jail.

The passing of bogus checks is a common thing for Bedwell, but they are always for small amounts, and so far, with the exception of a few months in jall, he has escaped punishment.

Henry Williams, the negro who was convicted of forging the name of another darkey named Rabe Daniels, in the Superior Court some weeks ago, but who escaped a trip to San Quentin through Judge Smith setting aside the verdict of the jury and discharging him, was yesterday convicted of petty larceny and will be sentenced today. OFFICE OF THE TIMES, Los ANGELES, July 14, 1892. Los ANGLES, July 14, 1892.

The outlook for wheat this season is rather uncertain. Foreign market indications just now are all in the direction of low prices. The Eastern markets have been shaping in accordance with the downward tendency of prices in Europe and wheat has been moving quite freely from the Atlantic seaboard. The problem which now confronts the California producers is whether to hold their wheat, because of the unsatisfactory prices, or let it go at the unsatisfactory prices, or let it go at the exporter's terms.

A Vitiated Standard

Following closely upon the outbreak at Homestead certain Democratic Congressmen sought to reap all the political advantage of that deplorable affair by moving for an official investigation, backing up their measure with some oratory. The operatives were described as "the downtrodden serfs of the protected barons," and all that sort of thing. The Democratic press took up the refrain and added a ringing chorus. We quote from the San Fran cisco Examiner:

"As a matter of fact, are they not [the operatives] as completely enslaved by their poverty and the state of the labor market as ever were the negro chattels of the Southern plantations by he law and their masters?"

Well, we should say not! Who ever heard of the negroes on a Southern plantation taking possession of the property by force and holding it against rs for a week; then assuming to fraternize with and patronize the force sent to dislodge them? The investigation of the Homestead affair has commenced, and what do we find the first day? It develops the fact that the workmen have received on an average two and a half times the rates allowed English operatives in the same branches. O'Donnell the leader of the strikers, coyly admits that his wages were \$144 a month. Think of a "poor slave" reduced to the necessity of working for such a pittance! Naturally the Democratic Congressmen are not so rabid about pursuing the investigation as they were wher they first started. And the Democratic press has modified its tone considerably. There is not so much talk about the downtrodden operatives as formerly.

"My job is my life," said one of Carnegie's workmen a few days before the lockout occurred, and the bringing in of new men was being discussed. "My job is my life, and any man who attacks that has got to look out for himself. And now rival political factions at I'd rather die fighting than starve to

death." Stripped of its sentimental glamour this declaration is equivalent to saying: crack each other's heads as much as "Mr. Carnegie has employed me a number of years; he must continue to emloy me or we shall fight. He must then kill me or I will kill him."

What would be the result if this sort f tactics were adopted all along the

line of industry? But aside from the essential foolish ness of the proposition, it shows a false and vitiated standard of manhood. Any man who considers his "job" the ultima thule of his existence is a fool In this country especially he should regard it as a mere stepping stone to something better. Men have arisen and can yet arise from humble begin nings-from manuel occupations at mod erate wages-to affluence and the mos commanding positions in the land. But it requires patience, self-denial, ambi tion to do this, and the sorest trial WILLIE BROOKS, a seven-year-old lad of comes in getting the start. Jay Gould pick and shovel for probably \$1 or \$1.50 a day. Suppose he had then sack of flour in each hand and carry said "My job is my life; I propose to hold on to it as long as I exist." might still (between strikes) be handling a pick and shovel! Hundreds of raised themselves from as humble be ginnings as Jay Gould's. We have had Presidents, Senators, Congressmen, Governors, railroad magnates, millionaires, bankers, merchant princes, who got their start in that way. But not one of them ever said when he was at the foot of the ladder "My job is my life; I propose to hold on to it against all comers.'

It is against this un-American idea of a mericans, French and Poles who will take the leading roles, but Scalchi is the only Italian of rote. The great attraction will be the appearance of Emma Calvé, who is that rare combination, a singer of acknowledged meritand an actress of uncommon power.

The bicycle has begun to assert itself in English politics. A Touring Club, which has 20,000 members in the towns and larger villages of the United Kingdom, demanded a pledge from each Parliamentary candidate that he would in case of election vote in favor of a measure making the display of lights by all vehicles at night compulsory. In this country the bicyclists are campaigning for good roads, and the sympathies of all enterprising people are with them.

It is against this un-American idea of a merican workmen aclass who never expect of the titalian. There are special policeman who shot George Schmidt, returned a verdict of man-shade the Democratic bosses at Washington. Democrats are determined to please all comers.

The prisoner is a middle aged woman and the mother of two children, who are with friends of two children, who are with friends of better days.

As "Casimir," the lion tamer, Francis Wilson must be seen to be appreciated. He was clever as "King Aason IV." but in this new part he is great. Miss Lulu Glasser, as "Angelina," an equestrienne, does some splendid work, but it must be confessed that the exigencies of this very difficult part are somewhat too severe for an actress of her necessarily limited experience. That she has a bright future before her is certain, but at present she is far better fitted for such a part as "Lazuli," which she filled to perfection, than that she is cast for in The Lion Tamer. Miss Laura Moore as "Lucid" excelled her solo in the second act. Miss Nettle Lyford made an attractive "Nina" and Miss Cecile Eissing looked charming as "Columbia." Of the male contingent, Charles Plunkeit as the "Grand Duke" did sterling work and Gilbert Clayton deserves credit for his excellent rendition of "Sotherman," the juggler. HOMESTEAD (Pa.,) July 14.—[By the Associated Press.] While martial law has not been officially declared in this borough, it has taken place to all prac-tical purposes. This is the result of illegal arrests yesterday by a special policeman. This morning two companies of troops with twenty rounds of ball cartridge and fixed bayonets were ordered to patrol the streets. They vere ordered in case of an arrest by policeman for any manifest breach o the peace, such as drunkenness, that they should not interfere, but in all other cases they are to take both pris Marshal and if the arrest is illegal the policeman will be punished. tain preservation of the peace.

It was reported this morning that the town was officially declared under martial law, and the strikers were not at all pleased when they heard it, as they thought it presaged an immediate attempt to run in non-union men. There are an unusual number of men in the mills today, but whether they are non-union men has not been learned. The locked out men are not entirely pleased with the action of Carnegle's men in with the action of Carnegie's with the action of Carnegie's men in other mills threatening to strike unless a conference is granted the Homestead men, as they believe the others can do them more good in case of a long struggle by remaining at work and helping them financially.

All day long everybody in Homestead

has been expecting the arrival of 400 non-union workmen. They were scheduled to arrive at 3:30, but up to a late hour the "black sheep" had not materialized. At a special meeting of the Advisory Committee tonight it was believed the men would be brought in by river and the patrols were strength-ened on the banks of the Monongahela to meet and argue with the incomers. It was urged that any resort to violence would be practically treason. The pickets were advised to ask the incomers if they were taking the places of straight workmen because they needed food for themselves and fam-ilies. If an affirmative reply was returned the committee was authorized to promise to help them until they could secure other work. The committee was impressed with the necessity of using the utmost discretion. It is here that the only danger of a collision exists, as the strikers will certainly endeaver talk to he rooming men deavor to talk to the non-union men as they are brought in. The patrols have been established for this sole purpose and if the militia does not permit argu-ment there may be an effort to have arguments, whether or no.

The situation is to some extent criti-cal because the strict discipline of the troops is very liable to clash with the utterly fearless, determined strikers. The latter propose to indicate their right to speak to any one they please so long as they are peaceable. On the other hand it is believed no one will be permitted to speak with the new ar

THE COURTS.

Morros, the Greek Masher, Found Guilty.

The Jury Only Out in His Case Fifteen Minutes.

Decision in Regard to the Estate of Reml Nadeau.

ors Are Entitled-Action to Cancel a Deed-General Court Notes,

The trial of the case against A. K. Moropulos, the Greek masher, charged with having disturbed the peace of Miss Jesusita F. Lopez on February 6 last, was resumed before Judge Smith and a jury in Department One yesterday morning, the defendant being recalled to the stand to repeat his statement in the statement i case the jury should have forgotten it during the night. At the close of she cross-examination of the defendant the defense rested its case and the Misses Lopez and their brother and Mrs. J. R. Fraser were recalled in rebuttal and contradicted several of the Greek's statements. Both sides then closed and the matter, after lengthy argument, was submitted to the jury at 8:15

Less than fifteen minutes later that body returned into court with a verdict of conviction and Judge Smith ordered the defendant to appear for sentence at 10 c'clock this morning, when he will probably receive the full penalty of the law and a "roasting" from the bench in the bargain.

THE NADEAU ESTATE.

Judge Clark yesterday morning ren-dered his decision in the matter of the estate of Remi Nadeau, deceased, or-dering a settlement of the final account of the executors and denying the peti-tion of M. A. Powell and J. H. Bell for subrogation, without prejudice, in ac-cordance with the following brief

Settlement of final account of executors:

opinion:

Settlement of final account of executors:
First—Where no compensation is provided for by will executors must be allowed commissions upon the amount of the estate accounted for by them (C. C. P., sec. 1618.)
In estimating commission the appraised value of the estate is prima facie the true value, but where it is subject to incumbrances the value of the equity should, I think, be taken as a basis.

The appraised value of the real estate of deceased was \$600,400. This was subject to incumbrances aggregating \$160,375.80, which must be deducted and when deducted leaves \$440,024.20. To this sum should be added the personal property accounted for, appraised at \$130,711.40, and the income from the estate received and accounted for, amounting to \$142, 672.54. Estimating commissions upon this basis and according to the statute the commissions to be allowed the executors aggregate \$8954.

Said sec. 1618 (C. C. P.) provides that in all cases such further allowance for extraordinary services as the Court may deem just and reasonable, but not to exceed one-half of the commissions allowed by said section, may be made. The executors ask that their commissions be increased one-half of the commissions be increased one-half of the commissions be increased one-half of the commissions allowed by said section, may be made. The executors ask that their commissions be increased one-half of the commissions with the nature and condition of the estate required were rendered by agents and bookkeepers employed by them, and they having been allowed in their accounts as wages for such employés sums aggregating about \$5474, including \$1100 paid for bookkeeping, I am of the opinion that this request must be refused.

The executors ask to be allowed to resign and that an administrator with the will annexed be appointed. There is out one aggregate sum to be allowed as commissions for administration (estate of Barton, 65 Cal. 87,) and if their resignation be accepted a part of the commissions sufficient to compensate such successor must

to compensate such successor must be retained.

Second.-Said deceased in his life time, in consideration of love and affection and in consideration of an agreement upon her part that the same should be received and and accepted as her full share in his estate conveyed to his wife, Laura M. Nadeau, certain property in the city of Los Angeles, known as the Nadeau Hotel property. Said conveyance was made subject to a mortgage to one Jasper Harrell of \$225,000, which the deceased for the consideration above stated covenanted against.

The will of deceased provided, "First, it is my will that my executors hereinafter named pay out of my estate the incumbrance now existing on that certain lot in the city of Los Angeles which I conveyed to my wife, Laura M. Nadeau, by deed dated December 30, 1886, and to comply with and fulfill my covenant in said conveyance to cause said premises to be released and discharged of all existing incumbrances

scharged of all existing incumbrances

to cause said premises to be released and discharged of all existing incumbrances thereon."

The said Jasper Harrell proved his claim against said estate in the manner required by statute, but the same was not paid by the executors, they not having sufficient funds therewith to pay it, and it was satisfied by a foreclosure of the mortgage and sale of said premises. The said Laura Nadeau has assigned to M. A. Powell and J. H. Bell all claim that she may have by reason of said conveyance and provision in the will, and said assignees now petition the Court to be subrogated to the rights of Jasper Harrell against the said estate.

It would seem clear that the said conveyance and covenant of deceased would be, as against creditors of deceased would be, as against creditors of deceased would be, as did Laura Nadeau or her assignees cannot therefor be subrogated to the full rights of Jasper Harrell as a creditor of said estate. But as against deceased, his devisees, legatees and other volunteers the said covenant would be vailed and binding, and to that extent the right of subrogation might perhaps exist. Before granting the motion, however, such volunters should, I think, have an opportunity to be heard, and the motion should not be granted ex parte. It will therefore be denied without prejudice. Let an order be entered in accordance herewith.

W. H. CLARK, Judge.

an action to cancel a deed, was commenced before Judge Shaw yesterday, Messrs, Judson, Hester and Hyatt appearing for the plaintiff, and A. W. Hutton, Esq., for the defendants.

The plaintiff alleged that on May 8, 1888, he loaned defendant, Palmateer, \$6000 for five years, taking as security therefore a note and mortgage on a piece of land at Pasadena. The interest not being paid on the note plainterest not being paid on the note, plainterest not being paid on the note, plainterest not being paid on the note, plainterest not being paid on the note. piece of land at Pasadena. The interest not being paid on the note, plaintiff foreclosed the mortgage in November, 1891, for \$7487.72. On December 5 last the property was sold by the Sheriff for \$4000, leaving a deficiency judgment for the balance. On January 4.1890, defendant conveyed all property, amounting to about \$20,000, to his wife, in trust for their infant daughter, and plaintiff alleged that this was done with the express purpose of beating his creditors, plaintiff among them. He therefore seeks to cancel the deed, so that his deficiency judgment may be satisfied.

The defendant, of course, denies that he conveyed the land for the purpose of defrauding his creditors.

The case will be resumed this morning.

EVANGELIST MILLS.

His Methods Criticised by the San Franwhile Rev. B. Fay Mills, the revivalst, is meeting with great success in his work in San Francisco, as he did in Los angeles and every other place he ha visited, he is not escaping criticism, as will be seen by the following from the San Francisco Examiner of Tuesday:

San Francisco Examiner of Tuesday:
The Baptist preachers were the first to
ask for full information about the methods
of Evangelist B. Fay Mills and to question
among themselves as to the desirability of
inviting a professed revivalist with all the
incident excitements and disturbance to the
regular orders of the church. After some
pointed remarks from a minority of the
Baptist clergymen, who did not care to indorse Mr. Mills, that denomination as a
whole joined with the other Protestant
churches in preparing for the advent of
Mills.

But the guernleagness did not care as

Mills.

But the querulousness did not cease when the Baptists fell into line. The Methodist took it up and are now conferring seriously before declding upon the attitude of the church toward Mr. Mills. At the Methodis church toward Mr. Mills. At the Methodist preachers' meeting yecterday the revivalist was the leading subject of discussion. Several of the pastors whose churches are small and not rich objected to being assessed \$100, or any sum proportionately greater than was asked from other churches. Rev. Dr. R. S. Cantine, of the Van Ness Avenue Church, was especially emphatic.

Van Ness Avenue Church, was especially emphatic.

"I have preached in Los Angeles," he said, "and in San Francisco, and I cannot conceive two cities more different in respect to their feeling toward gospel ministrations. The people of Los Angeles go to church because it is the proper thing, and maybe because it costs so much to go to the seabeach. But here in San Francisco the town empties itself into Golden Gate Park, the Presidio or some of the suburban places that can be reached for a few cents, and that seems to be considered the correct thing to do on Sundays. Nobody is left to and that seems to be considered the correct thing to do on Sundays. Nobody is left to preach to, and it is l'atle wonder that the churches grow so slowly. I do not think that more than a small fraction of the converts claimed by Mills are really converted under his ministry. He counts all the persons who send their names to him as desiring to live Christian lives as brands plucked from the burning, whereas, in fact, most of them are already in the church and converted.

"He assessed my church 90 cents per member, and I shall see what other congregations are paying before I go into the revival."

Rev. Dr. E. McClish of Grace Methodist

gations are paying before I go into the revival."

Rev. Dr. E. McClish of Grace Methodist Episcopal Church was even more outspoken in his opinion about B. Fay Mills and the results of his labors.

"Mills is an extreme Calvinist," said Dr. McClish, "and there is no doubt that he does what he can to direct the results of his revivals to strengthen the Calvinistic churches, which are the old-style Baptist, the Presbyterian and to a great extent the Congregational. My church was asked to pay \$100 toward the expenses of his meeting, and we collected the money, but I advised my trustees to hold on to it for a while, until we could learn just what the drift of the Mills revival would be.

"I believe in revivals and shall help, but I also believe that the Methodist Church should share equally with the others in the benefits to be derived or else do its own revival work, as it has always done since it was founded,"

TELEGRAM reached this house today from the

largest cloak house in the world. It is short and sweet; it reads: "Cloaks expressed today." We know the meaning, but you don't; it means the largest single purchase of Cloaks ever made by any house in this city; t means upon their arrival we will demonstrate to a certainty that the cloak sales of this house will be more than double the combined cloak sales of all the cloak houses in this city. Black Wool Biazer Jackets made this season will be sold for \$1.00 each. Upon arrival the goods will be on exhibition in our windows and a special day will be named for their sale. No house in this city ever made the gains we are now showing; it is like Aladdin's dream. The Cloak Department is to be double in size; it will do quadruple the business. Come and buy Shoes at prime factory cost. Our enormous Cloak Purchase will soon be here and we need every foot of space—the Shoe Department is to be closed entirely. Crowding the sales of weeks into days -throwing the doors wide open and bidding all welcome -advertising goods and inviting you to our party-showing goods that have merit in style and quality, and more merit for lowness in price—goods that are new, and doing business by our new way. You may return any article you do not want and get your money back. The bars have all been taken down, the gates have been taken off their hinges, the fences have all been burned and the road widened, graveled and sprinkled, trees have been planted and have taken the place of the dry stubble, good cheer has displaced displeasure and the trade of this house is doubling up. You know this is true; you hear it everywhere; you know no house commands the crowds, and the crowds know the value of our offerings. Here is another telegram about a lot of Dress Goods; the agent wired his house our offer; here is the reply: "Yes; and try and sell him big bill—loss very large." Read Sunday's TIMES.

French-American Citizens Celebrate the 14th of July.

How the Fall of the Bastile is Re membered.

When Monarchial Tyranny Gave Way to Republican Liberty.

The French-American citizens of Los Angeles fittingly celebrated yesterthe anniversary of the fall the Bastile. The 14th of July, these who claim France as their fatherland, is a day as sacred to patriotism as is the Glorious Fourth to native Americans, for it was on that date in 1789 when the populace cap-tured and destroyed the citidal of monarchy, tyranny and oppression. Since that time, which marked the beginning of the French Republic, the returning anniversary has been annually

At 8 o'clock last evening a large company of both sexes congregated at Hazard's Pavilion to participate in the literary exercises of the evening. The pavilion had been beautifully decorated for the occasion, festoons of red, white for the occasion, festoons of red, white and blue bunting being suspended from the ceiling, and drapings of tri-color gracing the walls and balconies. Upon the stage, on either side, sat pretty girls with large flags of the United States and of France, the two republics that started the experimental form of government at nearly the same time and have since been bound together in ties of sisterhood. ties of sisterhood.

The exercises of the evening were opened by the orchestra playing "The Marsel laise," after which Louis Sentous, Sr., was introduced by Honorary President Leon Locb as the president of the day, and he made a few pleasant remarks to the assemblage.

The orclestra next played "The Star Spangled l'annir," which was vociferously appl auded, and Mayor Hazard was introduced by President Sentous.

The singer was brought back by the audience, and he rene ered another song in French which pl based his hearers as well as his former effort. Then C. W. Wescott entertained the people with his whistling, giving imitations of bird songs and other fan hillar sounds.

The orator of the day, Dr. de Cailhol, then addressed the hudience in a masterly speech, referring at some length to the historical fea tures of the celebration, to France before and since the

Offered by the Southern California Land Comp any, 230 North Main Street, adjoining First National Bank.

1630 Shares at \$100 Each, In Installments of \$5.00 per Month Without Interest.

Not a Land Distribution, but An Investment of Money! Each share will earn 5 per cent, per month on each \$100 for five years, and has the best real estate security.

Sixteen hundred and thirty shares at \$100 each will buy the Fowler Ranch of 6820 acre with the present improvements and the prospective improvements to be made by the present owners at a cost to them of \$80,00. This splendld property is situated on the border line of Tulare and Kern counties, four miles west of thi: Valley Road of the Southern Pacific Railroad, and four miles north of the branch line to the oil wells and twelve miles west of the present line to San Francisco. A survey of the Santa Fe line has been made through the western portion of this tract.

We are soliciting subscriptions for shares in an incorporation to be organized for the purpose of buying from the present owners the Fowler Ranch, containing 632 acres, situate on the border line of Tulare and Kern counties, for 85 per acre, with its present improvements and with 830,000 of improvements to be trade by the owners and included in the price of 825 per acre, as stated. The \$50,000 proposed improvements guaranteed by a deposit in bank of that amount, to be paid out to the contractors on certified vouchers as they progress with the work.

Description of the Property.

The land is a rich, black leam, and is known as the Fowler Ranch. It was purchased many years ago by the late Senator Tom Fowler of Tulare, when he had the opportunity of obtaining the cream of Tulare and the opportunity of obtaining the cream of the artesian fruit and affalfa belt; has upon it now keep a cream and well flowing 120,000 gallons, and is in the immediate vicinity of the largest flowing wells in the State.

The low rate of the purchase, \$25 per acre, with all the present and the projected improvements herein recited, made and paid for by the present owners, at a cost of \$30,000, enables us to guarantee at the lowest rate of sale in the future, say \$100 per acre within the years, an interest of 5 per cent a month on each share of \$100 from the date of sub-

An investment with perfect security and earning 5 per cent, per month on each \$100 share for a term of five years from the date of the first payment of \$5, must arrest the attention of every one. "Our many friends may be glad to know that we have pitched our tent for a month's stay by the peaceful Merced, which like a mirror reflects the gigantic trees that shelter us, and the lofty Sentinel rock at our backs and Yosemite Falls and El Capitan before us. One could hardly believe that its mad waters, which but a little before came plunging down Nevada Falls 600 feet, and again wildly leaping over Vernal Falls 350 feet, and lashed into fury through boiling cauldrons of wild rapids and angry cascades, could in so short a time become so calm and peaceful, giving back smile for smile to all nature. But peace is nature's law, and whatever her provocations she quickly returns to her attitude of divine repose.

SANTA ANA.

The Board of Supervisors met yesterday in adjourned session with all the members and the clerk present.

The committee on experting books of county officials reported having employed J. H. Adams for that purpose, and on motion the report was accusted. A transfer of \$1000 was made from the general county fund to the World's Fair fund.

local banks show the following amounts now on deposit: Citizens' Bank, \$100.528.26; Ontario State Bank, \$30,797.24. C. D. Ball was heard on the value of his improvements on Main street. We are at somewhat of a disadvantage, as the Supervisors have abolished the office of Health Officer in Ontario. The alleged reason was the Incorporation of the town, but as the municipal limits include only about one-eighth of the population which was covered by the Health Officer, that seems a triffic thin. It is possible that Ontario's vote on Courthouse bonds may in some measure account for this sudden fit of economy on the part of the Supervisors.

A WILD-EYED RANCHER'S TIRADE.

A wild-eyed rancher by the name of Cooper, who knows less about politics than he does about the raising of potatoes, big pumpkins and monstrous beets, attracted considerable attention on Fourth street yesterday by conducting an open tirade against the two old political parties and their chosen leaders in language that was more inelegant than sensible or practicable. He loudly proclaimed that he was no 'nD—m Prohibitionist,' but for fear some one of the bystanders might think he was he proceeded to "booze up" after the fashlon of the noted "Tennessee-go-forth Bill." Later on an officer kindly loaded him into his wagon and started him toward home, the old man stoutly affirming that he was opposed to capitalists, Pinkerton detectives, to Harrison and Grover. All he wanted to see was suffering humanity have a fair shake. A WILD-EYED RANCHER'S TIRADE.

THE COUNTY JAIL.

A correspondent writes as follows about the County Jail:

Please allow me to say through the Orange county column of The Times that the greatest trouble with our County Jail is with its management. No careful farmer will leave his hennery unfastened, even though it may stand within another inclosure; but our officials make no use of the iron cells provided for the detention of prisoners, and then say the jail is not safe. The county was bled to the tune of over \$1000 for guarding this and the old wooden jail. When the outlay was stopped by arousing public opinion against it, the grand jury was made use of to strike back at the Board of Supervisors. That the old sore has not entirely healed is shown by its breaking out in a new place. Yours, S. Armon.

tation. When the night freight pulled into the depot, Pomeroy had his cars coupled on, and then announced to the men that the show had gone to pieces, and ordered them to take off their trunks and effects. Pomeroy, it is stated had a loaded revolver to emphasize his order. The men were taken completely by surprise, and as the train was about to pull out they chose the least of two evils, dumped off their personal effects and remained in town. Most of the men were without a cent to get lodgings or purchase a breakfast. Two or three of the performers who had a little money, put up for the others for one meal. Yesterday the people decided to give an exhibition in Kroeger's Hall, and depend on the generosity of the citizens to thus furnish them the means of getting out of town and to some city where they might obtain an engagement. The show people have with them all their costumes and effects, the troupe of twelve performing dogs, trick donkey, the acrobats, contortionist, tight-rope walker and tumblers, as well as the band of eight first-class musicians. They gave a parade in the streets at noon and got out some handbils explaining their situation. It is hoped they succeeded in realizing a good amount.

The fellow Pomeroy, so doubt, had "cooked" his programme some time ago, for when the storekeepers here felused him credit on Puecday he displayed a roll of bills and gold to the amount of over \$2000. Had the men pulled him off the train when he dismissed them without notice Wednesday night, given him a sound thrashing, took away his money and paid themselves what was due them, it would have served the fellow just right.

They would fail to see where it would be likely to be a paying investment. It has been charged frequently that the Southern Pacific is against new lines entering the State. That is not true. We would gladly welcome any road that will bring 20,000, 30,000 or 50,000 families to California and develop the resources of the State, for it would necessarily benefit the Southern Pacific. essarily benefit the Southern Pacific.
We want the people to come as badly as anybody, but do not see where they are likely to come from in the immediate future."

SOUNDS LIKE ANCIENT HISTORY A very useful little book, called the Official Railway List, is published once a year in New York. In the 1892 edition, which has just come out, appears some interesting information about the Los Angeles and Pacific, a road over which no wheels have run in more than two years. The paragraph devoted to the Los Angeles and Pacific says that the road has thirty miles in operation, has four locomotives, twelve passenger cars and four miscellaneous cars. A long list of officers is given, but no reference made to the receiver in whose charge the bankrupt road has been since it ceased to be operated.
The Official Railway List is too good a
handbook to fall into the error of reprinting information which was correct
once but which a lapse of time has
made obsolete. SCRAP HEAP.

In connection with what has been said on this subject the Chronicle says: S. H. H.
